DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sharon Upham (Reg. No. 43,357) on 7/19/2005.

Allowable Subject Matter

2. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-10, the prior art alone or in combination does not teach the limitation of a detector assembly comprising: a first capacitor plate and a second capacitor plate, a surface of the second capacitor plate being spaced apart from a surface of the first capacitor plate to define a capacitor gap, *the first capacitor plate being positioned to be inside the lower pressure region when the detector assembly is attached to the chamber wall, the second capacitor plate being supported by the support element through insulating coupling.*

Regarding claims 11-15, the prior art alone or in combination does not teach the limitation of a detector assembly comprising: a first capacitor plate positioned to be

inside the lower pressure region when the detector assembly is attached to the vacuum chamber wall, a second capacitor plate having a surface spaced apart from a surface of the first capacitor plate to define a capacitor gap, *the second capacitor plate being attached to the support element and positioned to separate the lower and higher pressure regions and being configured to receive a fastener to attach a circuit board to the detector assembly.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
